#### NINE NEW CASES YESTERDAY.

THE YELLOW PEVER AT JACKSONVILLE SEEMS TO BE INCREASING.

The Latest Order Confines the People to the Infected City-Refugees Turned Back-A Newspaper Man Forcibly Ejected from a Train—Terrible Experience of Floring -Quarantines Established.

JACKSONVILLE, Aug. 26. —The official bulletin fo

the pest twenty-lour hours ending at 6 o'clock P. M., Aug. 96, is as follows: L. Aug. 10, 18 as follows: Bow cases, 9: deaths, 2 (K. W. Dipon and William )caugh); recoveries, 2 (Davis Lloyd and Robert Grace). cader treatment, 64: total number of cases to date, 109:

ber of deaths to date, 14. NEAL MITCHELL, M. D.

The new cases are J. E. Bogue, Miss Minnie Bours, Mrs. J. A. Bogart, Amelia Coste low terton Mayst (colored), Fannie and Grace Harden

Miss M. A. C. Craig and Henry McGuire. Althere are now six colored persons down and many suspicious cases. Although there are only nine cases and two

deaths officially reported, it is said there are far more cases which have not been entered in time for the official report of to-day. One of the doctors said to-night that he thought the number would be above the record and not far short of twenty. The deaths are three, though one will be entered in torow's report, namely, Mr. McArtnur, Of the new cases to-day one is Miss MacCraig, the staff of the Times-Union, who was in the office yesterday afternoon and who was struck down to-day and is dangerously the and delirious to-night. H. D. Roberts, the head of the turtle-canning industry, is also dangerously ill, se is also G. W. Smits, one of the Grand Union

Mrs. Firming, sister-in-law to the Democratic minee for Governor of this State, is rapidly ap-mobing conval scence. Drs. Stout, Stellenerck and Watefield are all progre-sing satisfactorily, as are all the other patients excen-Three Si-ters of Mercy telegraphed for by Father Kenney have not ly come over from St. Augustine to nurse the sick in the hospital at the Band Hills.

Dr. Huan, an old Cuban doctor, who has seen ots of jellow fever in his time and has been up to the present one of the sceptics, was to-day reted to call on Dixon, who died, and has certifled in writing that it was the most typical case of yellow fever he had ever seen. Dr. Romero, other Cuban, who had McArtnur's case in head, refused to report it as yellow fever, and to-day, on the man's death, reported it as from malignant congestive fever, and this in the face of the desed having slept in the same bed with the mas Shute, who is now at the Sand Hills with a marked attack of yellow f. ver. There are many such cases, which cause the Board of Health endies

The Government has assumed charge of the quarantine regulations, and all the trains south of ikstone are run under orders of Surgeon-General Hamilton, at Government expense. At preent the railway authorities cannot issue a ticket to any place until Dr. Gotteras or Surgeon-Genera Hamilton choose to make arrangements. The people of Jacksonville are simply perned in a

cage. As several towns north of Geong, including Atlanta, have opened their arms to them the people here are terribly outra ed, and threater o arm and force their way through to the places ready to receive them. Dr. Neat Mitchell has written and telegraphed the authorities at Boulogne that transportation northward must be furnished, as the people demand an opportunity to escape. Aspecial train arrived at 8 r. M. from Camp

Perry with one case of yellow lever. It is under now that the Government has taken charge of the train service here and will run one train daily each way between here and Camp Perry, arriving here at 7 P. M. and leaving one hour later. All Jacksonville refugees will have to remain in stantine there ten days before going North. Most of the people will prefer staying here to the ions to be endured at this camp. The epidemic seems incre sing. Col. J. J. Daniels, Pres ident of the Auxillary A-sociation, received word from Washington to-night that the Government would pay for all buildings destroyed. This will be welcome news to all here.

The latest order is to the effect that Jack-

sonville people shall not leave the city. A carload of Jacksonville retugees bound for Atlanta and other places that have offered shelter was turned back last night into the quarantine camp, but by whose order cannot as yet be learned. General Manager H. S. Haines saying that it was a surprise to him, as he had no such orders. To-day the report has gone forth, but from what source cannot be learned, that no one will be allowed to leave on the Sa vannah, Forida and Western trains from this city.

This morning Tat Bowden, city editor of the Times-Union, boarded the train, intending to go out to Camp Bo ague to write it up. He had a pass from Agent Stevens. As the car was looked Mr Bowden atood on the platform. When the train slowed up at Lavilla Junction the conducto came through and told him to get off. The pass was shown him, but he abruptly replied that he had positive orders not to allow a dagle person to leave on he train. As Mr. Bowden still maintaine : his right to ride the con uctor and br keman took hold of him and pitched him into the bushes by the wayside, and prevented him from getting on the train again. No one is here to-day to represent the road, and no informabeen i-sued to seil no tickets over their road. Only a looked mail car now leaves,

Nor is this ail. By this order no one from here can go to the quarantine camp that was estab lished expressly for the refugees from this city. Scores of telegrams have been sent off trying to ascertain by whose authority this is done, but no replies have been vouchsafed from Washington or

The streets to-day resemble the avenues of eleeping city. A solitary pedestrian is seen once in a waile, while the sound of a footiall echoes and re-echoes up and down the deserted walks.

A resident received a letter from ats wife, who had fled from the stricken city, saying that all the way from the borders of Florida to Atlant. the car was so packed with fie ing exiles that she could and room only for her feet on the floor, her little children chinging about her knees and neck sobbing the night away through six hours of indescribable sufferings. It would have been a blessed reilef, she said, to have sunk down upon the bare soor, but the sweltering masses, packed close around, held her as in a vise. The doors of the cars were locked and the victims could not escape.

Passelved. That we, the citizens of Blacksbear, desiring to pursue the course necessary for the removal of the press at quarantine assinst our town, assired that the press of quarantine assinst our town, assired that the pression of the pression of the same of the places, and only notify the Mayor of each place so quarantined.

Stereopticon Pictures that Trouble the Re-

The stereopticon man in Usion Square still to reflect hot shot into the Republican camp. Saturday night he loaded stock of ammunition, and turning on his fivethousand-c-ndle-power electric light shot steriling Democratic maxims and scathing references to the Republican party and politics over the heads of the -sembled growd below. In his modest way the stereopticon man does more damage to the supporters of high tariff and free whiskey than they porters of high tariff and free whiskey than they are willing to publicly admit. A short time ago both the Union Square man and his brother steriopticonist, who does such goodly work at Broadway not Twenty-hird street, were offered by the representatives of the Republican Committee a round thon and a season for the use of their machines during the campaign, but refused it. In despair, as told in yesterday's Wonio, the Republican Committee has bought up snace in elevated and horse cars wherein to display their opposition sentiments.

THE WAT IT IS DONE.

The first shot fired by the Union Square man Saturday night was a neat satire upon the Re, ublican feith, "Tariff for revenue only," The Union Square min's version read "Tariff for moncepoly only," and was received with great applicate by the speciators below. Comina upon the heels of the President's last message t e following sectiment scored tremendously: "Blaine immessand irets about Britis, influence; Cleveland has the courage to check it." Then followed The WORLD's ratio of President Cleveland shaking the straw stuffing out of the Republican British bugaboo, which was received with increased appliance. THE WAT IT IS DONE.

ONE FOR BLAINE.

ONE FOR BLAINE.

The next was a ratice and awakened great enthusiasm. It read, "A sole for Harrison and Morton is a vote for Chinese competition with American labor and British domina lon over American commerce." This aded away and was replaced of The Worklo's cartison of the "Old Roman" standing upon the Democratic platform with the Dimocratic platform with the Dimocratic battle-flat, the red bandanna, in his hand. Then the magnetic man of Amine caught it as follows. "Trust and bust is Blaine's motto thus year."

And o the show went merrity on until midnight, and the sightners stole away to their more or less recreasing alumbers.

SEVEN PERSONS BURNED TO DEATH, Cerrible Devastation by Forest Fires in

Michigan. ISPECIAL TO THE WORLD, I ISHPEMING, Mich., Aug. 96.—For nearly one hundred miles along the peninsula division of the Chicago and Northwestern Radway there

are forest fires. Between Negaunee and Stephenson there are at least fifty, some small, but mostly large and doing great damage.
At Nadean, Carney and Mumford fire has destroyed twenty houses. Yesterday all trains were delayed, but to-day the fires have moved back from the track of the road and the trains move through undelayed. The people of Na-can went to i owers to escape the flames, leaving behind then most of their h usehold goods. The town of B.g. ley is a ic, as is also the village of Stephenson.

As far as an be seen the fires are curring on both do sof the track. One family at Mum-ord, consisting of seven persons, is missing. The house was burned and no trace of them has yet heen found. It is thought they were burned while trying to escape, as their house was surrounded by fames. Nearly all of the farm buildings have been burned and the crops are entirely destroyed. Many people berely escaped with their lives, saving nothing at all from the house. Many homeless people are clowing into Powers, Bagley, Daggett, Stephenson and other villages yet untoncied. were delayed, but to-day the fires have moved back

touched.

Several hundred people are now homeless and the first are still spreading. It cannot be ascertained how far the fire has spreat except from reports of fugitives coming in. It is feared that many people cannot find their way out of the burning forests. The weather continues dry and warm. Nothing but a heavy rain can stop the devastation. Dangerous fires are burning at McFarland's Hill, tlarvey, Cambell and other places. The situation is very scrious and is apparently growing worse.
